

2022/23

SPRING SUMMER

TRACTORS 25-115^{HP}

BUILT WITH

A MESSAGE FROM THE GENERAL MANAGER

Welcome to the Kioti Spring/Summer catalogue 2022/23. We received a wonderful response to our previous catalogue, in particular the informative customer stories. It did highlight the great variety of applications and landscapes in which we see Kioti customers using their tractors and UTVs. We share more customer stories in this edition of the Kioti catalogue.

Happily, we are starting to see some positive changes with the supply chain challenges we have been experiencing. These changes will flow through to our Kioti dealers, who will start to see increased stock availability during the spring and summer seasons.

It is our 22nd anniversary for Kioti in Australia this year and we will be celebrating with our dealer network in September. Stay tuned for some exciting new product releases.

The weather forecast for spring and summer is predicting higher the average rainfall for most parts of Australia. Combined with the already high moisture content in the soil, we expect there will be many more, new and proud Kioti owners working their land.

Greg Clark
KIOTI AUSTRALIA

MORE BITE

OUR 4 YEAR WARRANTY

All Kioti tractors ranging from 26hp up to 115hp come with a standard two year or 1500 hour warranty covering all components on the tractor.

To complement this great coverage Kioti tractors have an additional Driveline coverage to a maximum of four years or 2000 hours for all models, which is standard with every tractor purchased (K9 UTV excluded).

This coverage is a manufacturer's coverage and not offered by a third party insurer and has no extra costs or excess required to be paid. A basic overview of the coverage includes engine, transmission, differentials, axles and all parts contained therein.

So, for four years or 2000 hour warranty, your Kioti tractor will have coverage on all major components and everything in between.

BUILT WITH MORE **BITE****25HP****CS** SERIES

On his property at Duns Creek, NSW, Ron Cusick sits in the driving seat of his CS2610 with local dealer Bill Faulkner alongside.

Compact frame, big heart – Kioti's CS2610 delivers the goods.

Powered by a Daedong 1007cc diesel engine, producing 25hp, the CS2610 is ideal for big projects on small to medium sized properties. Nimble, supremely comfortable and easy to operate thanks to Kioti's renowned twin pedal HST transmission, this is a peerless sub-compact tractor.

Just ask Ron Cusick up at Duns Creek in New South Wales. He has owned his CS2610 for 12 months and says, "I can't fault the machine."

Ron is on 35 acres and describes its original state as wilderness. Since buying the property, he has set about improving it and now has cattle, grows mahogany trees, tends to orchards and there are three dams – including one with goldfish and perch.

"My background is in machinery," says Ron, "and I've

always had second hand stuff, including tractors. But I ended up talking to Bill Faulkner at Stockers & Partridge and he looked after me with this little girl.

"Bill threw in a one metre slasher and I've been using that with the Kioti. I've been putting fire trails in today, using the bucket. I put a set of teeth on it and that gives me extra depth, especially digging into gravel or picking up firewood and logs.

"I also cut up two dead trees today and brought in four bucket loads of wood."

What a labour saver, whether it's doing driveways, mowing, digging or perhaps simply moving materials around. The CS2610, with its standard 4-in-1 loader, independent PTO, step through platform and 4WD is perfect for your hobby farm.

BUILT WITH MORE **BITE****30 - 42HP****CK** SERIES

Ted Bailey chats with his local dealer James Fisher alongside his CK4220 at his property just outside of Mareeba, QLD.

Kioti's compact CK4220 ticks the boxes for a Queensland tree farm.

Conditions can be trying in far north Queensland. There's the humidity for one thing and grasshoppers can severely damage crops and pastures.

For Ted and Tanya Bailey, a new venture on a 10-acre property outside of Mareeba required a tough, versatile and highly manoeuvrable tractor.

"We wanted a change," says Ted. "We decided to start a Christmas tree farm and nursery. It took a while for the stock to arrive and there are 2500 trees all up, both root and tube stock. It'll take us a month to plant them all.

"We're right on the highway and it's important to maintain the grass. I wanted the smallest cab tractor, so I could spray and mow and not get covered with dust and debris. The grasshoppers here eat everything that moves."

Ted first laid eyes on Kioti's CK4220 at the Mareeba field day last year. With its deluxe cab, gutsy 42 hp Daedong diesel engine, high ground clearance and compact dimensions – the CK4220 is 3070mm long and 1400mm wide – he thought it ideal for rough and ready work and nimble enough, too.

"The Kioti does jobs really easily and Tanya can use it because it's hydrostatic," Ted says. "The cab is such an advantage. I bought it with a mower, rotary hoe and pallet forks. Plus, it comes with the 4-in-1 bucket. The forks are so handy, because in the nursery I'm always moving around pots."

Ted and Tanya purchased their Kioti from NQ Agricultural Services in Tolga and are rapt with the service.

EX SERIES

On their property near Wingham, NSW, Louise and Dennis Smith (left) talk tractors with their local dealer Eddie Sheather.

Kioti's EX5810 – the perfect tractor for a perfect lifestyle.

Louise and Dennis Smith live just outside Wingham on the mid-north coast of New South Wales. Roaming across their acreage are a cow named Mama, her calf MamaLou, four poddy calves, Smithers, Waylon, Loulabelle and Rustle, two dogs and a cat.

Dennis is an optometrist and Louise does all of the bookkeeping for the business.

"That's our day job," says Louise. "Then we come home and our lifestyle is our property. We bought it about 15 years ago, fenced it, put a house on it and raised our kids here."

The Smiths have an old tractor which isn't always reliable and they found themselves constantly asking neighbours for favours. They decided a new tractor was needed and headed to Sheather's Machinery for advice. Kioti's EX5810 ticked all the boxes.

"Primarily, we bought the Kioti for 'slashing and landscaping,'" says Louise. "It was delivered two months ago but with all the rain we haven't been able to get out and use it much. We have put the 4-in-1 bucket to work and come spring, when it dries out, we'll slash the paddocks in sections."

Kioti's EX Series offers two engine configurations – 53hp and turbo-aspirated 58 hp – and 12 x 12 synchro shuttle transmission, 3-point linkage, standard loader with 4-in-1 bucket, deluxe suspension seat and standard three-speed auto PTO.

These are ROPS tractors with unbeatable features for this class, backed by Kioti's famous industry-leading warranty. Whether you're on five hectares or 35, the EX Series offers power, versatility and durability. Perfect for your lifestyle.

BUILT WITH MORE **BITE****48-58HP****DK** SERIES

Paul Smith (right) talks with his local dealer Shaun Madeley amongst his collection of Kioti tractors on his property in Beechwood, NSW.

Loader work at a sawmill made easy with Kioti's DK4810.

Paul Smith farms and also owns a sawmill at Beechwood in New South Wales. He provides timber around the region as 'Pioneer Fencing & Timber' and has done for decades.

He's also something of a Kioti aficionado; the latest purchase, a 48hp DK4810 bought through Inland 4WD at Wauchope, is his ninth Kioti overall. His first was a Daedong FX751.

"The DK is hydrostatic, and that's what I wanted," says Paul. "It'll be used for loader work with the bucket. When you're doing fence posts it can be up to 30 in an hour, so you're on and off the tractor."

"I'm 71 and I've retired three times! It keeps me busy. My brother has logging trucks and I supply timber to other fencing contractors. We're the fifth generation of our family who took up timber."

The DK Series has few rivals in the compact tractor class. Renowned for power and versatility, the HST transmission, hydraulic remote, foldable ROPS frame and 4WD all come as standard. With 48hp and 58hp versions, the DK is ideal for multiple farming and property needs.

"All up I've got five Kiotis down at the sawmill at the moment," says Paul. "I was told I should get a cabin tractor, so I traded one of the old ones for a Kioti RX6010. It gets a fair bit of use, too."

"I've still got a Daedong FX751 that I bought years ago and I use it every second day. I do all my own slashing and fencing and there's a heavy-duty Howard slasher on the back of the FX751."

4 YEAR WARRANTY*

BUILT WITH MORE **BITE****60HP**

NX SERIES

Alan Humbert (left) has a yarn with his local dealer Mark Cronin alongside his NX6020 on his property at Bridge Creek, VIC.

Kioti's NX6020 keeps a beautiful acreage in Victoria in top condition.

Alan Humbert lives at Bridge Creek, a short drive from Mansfield in the foothills of the Victorian Alps. His property is 100 acres of lush river flats and although much of the land is leased out, Alan turned to Mark and Ky Cronin at Mansfield Power Ag for a new Kioti to perform general farm work.

"I'm 80 years old and I've leased the paddocks to a young beef farmer," says Alan. "But you still need a tractor to feed out and the NX6020 is a good machine for a 1.6 metre mulcher. So, I mulch any grass the stock doesn't eat.

"It's a very well-manicured property. I use the mulcher a lot and the 6020 does it easily. I also use the bucket to shift a lot of gravel, as this farm is a new acquisition. We're redoing the road so I'll use the bucket on screenings."

Over the years Alan has owned four Kioti tractors and has previously owned a Kioti NX6020 and sold it – and everything else on the property – during his most recent land sale. He loves the Kioti range and swears by the ease of use, reliability and the hydrostatic transmission.

"Kioti has the models that suit small farms," says Alan. "You don't need to have a 100hp tractor to work here. The NX6020 has enough power – with the cab and a mulcher on the back, you can lift a five-foot bale onto a truck and do it safely."

4 YEAR WARRANTY*

BUILT WITH MORE **BITE****60 - 80HP****RX** SERIES

On his property inland of Coffs Harbour, NSW, Terry Wall (right) talks all about Kioti tractors with Kioti area manager, Robert Wruck, in front of Terry's RX8030.

Terry loved his RX8030 so much that he now sells Kiotis.

"I went from Kioti owner to Kioti seller and I'm having a ball," says Terry Wall. "I tell customers that's how I got my job – I wouldn't be selling them if I didn't believe in the product."

Terry and his family are on 130 acres at Nana Glen, approximately 25 kilometres inland from Coffs Harbour in New South Wales. He has 26 head of cattle, all Red Polls, and originally bought a second-hand tractor.

"It was an old dairy farm and there was a huge weed infestation here when we took over," says Terry. "I put a mulcher on the back and we've been mulching over it since then. The little tractor we had couldn't do it but the RX8030 just cruises along; you wouldn't know the mulcher was there."

"All my family are up on the Northern Tablelands and they said, 'Just get the Kioti – you can't go wrong'. And I thought, well, you can't argue with that."

Terry's RX8030 was delivered 12 months ago and has 300 hours on it. Aside from mulching, he uses the 4-in-1 bucket for cleaning up, mostly old fences and rotted posts.

"I didn't know tractors," he says. "But the Kioti is so easy to use – you just engage the forward and reverse shuttle and off you go. The RX series is a great machine for any farmer."

The salesperson who dropped it off from North Coast Construction Equipment told Terry that his boss was looking for a new salesperson – and the rest is history.

4 YEAR WARRANTY*

BUILT WITH MORE **BITE****95 - 115HP****PX** SERIES

Greg Ziebell (right) chats with his local dealer Michael Cook about his PX1052 on his property at Biddeston, QLD.

Kioti's PX1052 handles the mud and dust west of Toowoomba.

Greg Ziebell farms up at Biddeston, a small community near Toowoomba in Queensland's fertile Darling Downs. It's a family-run dairy operation, spread over approximately 740 hectares on two properties. A Kioti PX1052 does the bulk of the work.

"It was the simplicity of the Kioti that appealed to us," says Greg. "A lot of modern tractors are full of electronics and for something that we use a lot for feeding cows, and we're out in the mud, wet and dust, we just wanted something that was simple and reliable."

"That's the beauty of the Kioti – it's durable and straightforward. You turn the key and off you go; it's not overloaded with things that can go wrong."

The PX1052 is powered by a liquid cooled, 4-cylinder 105hp Perkins engine. Standard features include

hydrostatic power steering, Euro-designed wet clutch, power shuttle and hydraulic hi/lo and 2400kgs max. rear linkage lift capacity. Kioti's superbly appointed luxury cab is the finishing touch.

"Our Kioti has about 1300 hours on it," says Greg. "We mainly use it for feeding cattle, plus hay work with the loader and general farm work, so the sort of machinery on the back is for raking, conditioning and baling."

"Our balers need a 100hp tractor and that's why we went for something with a bit more power. Something I have noticed is its stability and traction – it's really good. We're really happy with it."

Greg bought his PX1052 through Michael Cook at Engage Ag and is delighted with the service.

BUILT WITH MORE **BITE****24HP****K9** SERIES

Dylan Mitchell (right) pictured with local dealer Thomas Baker alongside his K9 on his property outside of Melbourne, VIC.

Kioti's K9 makes life a bed of roses for a flower farm.

When it comes to UTVs, stability and traction are paramount. Weighing just under a tonne, Kioti's K9 UTV has a solid footprint and simply outdoes the competition in terms of ground speed, versatility and safety.

Underpinned by a 24hp, 3 cylinder, in-line vertical, water-cooled Daedong diesel engine, the K9 will hit 50 km/h in road conditions, yet safely handle inclines and declines and tight situations where a larger vehicle could not possibly venture. There are variable seating configurations to boot, as well as a carrying capacity of up to 500 kg.

"We're on bit of a hill," says Dylan Mitchell, a third-generation flower grower, "so we needed a 4WD. The K9 gets used for transport – we can take four people in it. Plus, we can chop up wood and carry it in the back. It gets to places where you can't with a car.

"It's got a rear diff lock and with the 4WD it can pretty much go anywhere. There's also a lot more grunt and it can tow a trailer without much strain. The more you drive it, the better you think it is."

Based outside Melbourne, Dylan's father and grandfather are still involved in the business, which specialises in hydrangeas, roses, camellias and magnolias.. Some florists come directly to buy, but most of the produce is sold to wholesalers.

Kioti's K9 is a welcome addition to their operation. Dylan loves the fact that even under load in damp conditions on the hills, his new K9 feels stable and does not miss a beat.

Dylan purchased his K9 from new local dealer Ag Farm Machinery in Warragul.

PFG CREDIT has been in operation for 15 years across the whole PFG Australia product range.

Our various finance packages ensure equipment repayments are tailored to your own cash flow requirements, whether that may be monthly, seasonal, or annual. A facility can be designed to conserve working capital and budget on a fixed rate, fixed term and fixed repayments to suit your individual farming needs.

PFG Credit allows clients to acquire equipment without a heavy initial down payment, which means you can pay for it from your operating budget and not from your capital reserves. This allows you to free up capital that can be used to grow other parts of your business.

CURRENT FINANCE OFFERS FOR KIOTI AUSTRALIA...

2.20% P.A.
available on new Kioti PX & RX tractor
models based on 30% deposit
and 24 monthly repayments^{*}

4.90% P.A.
available on all other Kioti tractors &
